

BYOD Programs - How do we compare?

Dear School Leadership,

We understand that managing a school's laptop devices can be a challenging task, especially when it comes to implementing a Bring Your Own Device (BYOD) program. That's why we would like to introduce you to the Edunet BYOD school portal, which can help simplify and streamline this process for your school. There are several reasons why a school should consider implementing a BYOD (Bring Your Own Device) program to

Cost-effectiveness: BYOD programs can save schools a lot of money, as they don't have to provide students with devices. Instead, students bring their own devices, which reduces the school's technology expenses. In addition, we provide a suite of deployment services that can save your IT technicians hundreds of hours setting up devices. Devices from Edunet can arrive ready for students to learn.

Commercial Grade Education Devices: Parents are able to purchase devices designed specifically for Education at affordable and discounted rates unavailable through general retail.

Flexibility: BYOD programs allow students to use devices they are already comfortable with, which can enhance their learning experience. They can also use their devices both in and out of the classroom, which provides more flexibility in terms of where and when learning can take place.

Aftersales Support: Edunet is one of the largest warranty and insurance repairers in Australia. We have a large team of service technicians that provide onsite support at your school to keep devices running smoothly.

We understand that implementing a BYOD policy can be a significant undertaking, but with our portal, we can make the process seamless and hassle-free. Please take a moment to review the included information. Our team would be happy to visit your school to provide a demonstration of the devices and BYOD ecosystem.

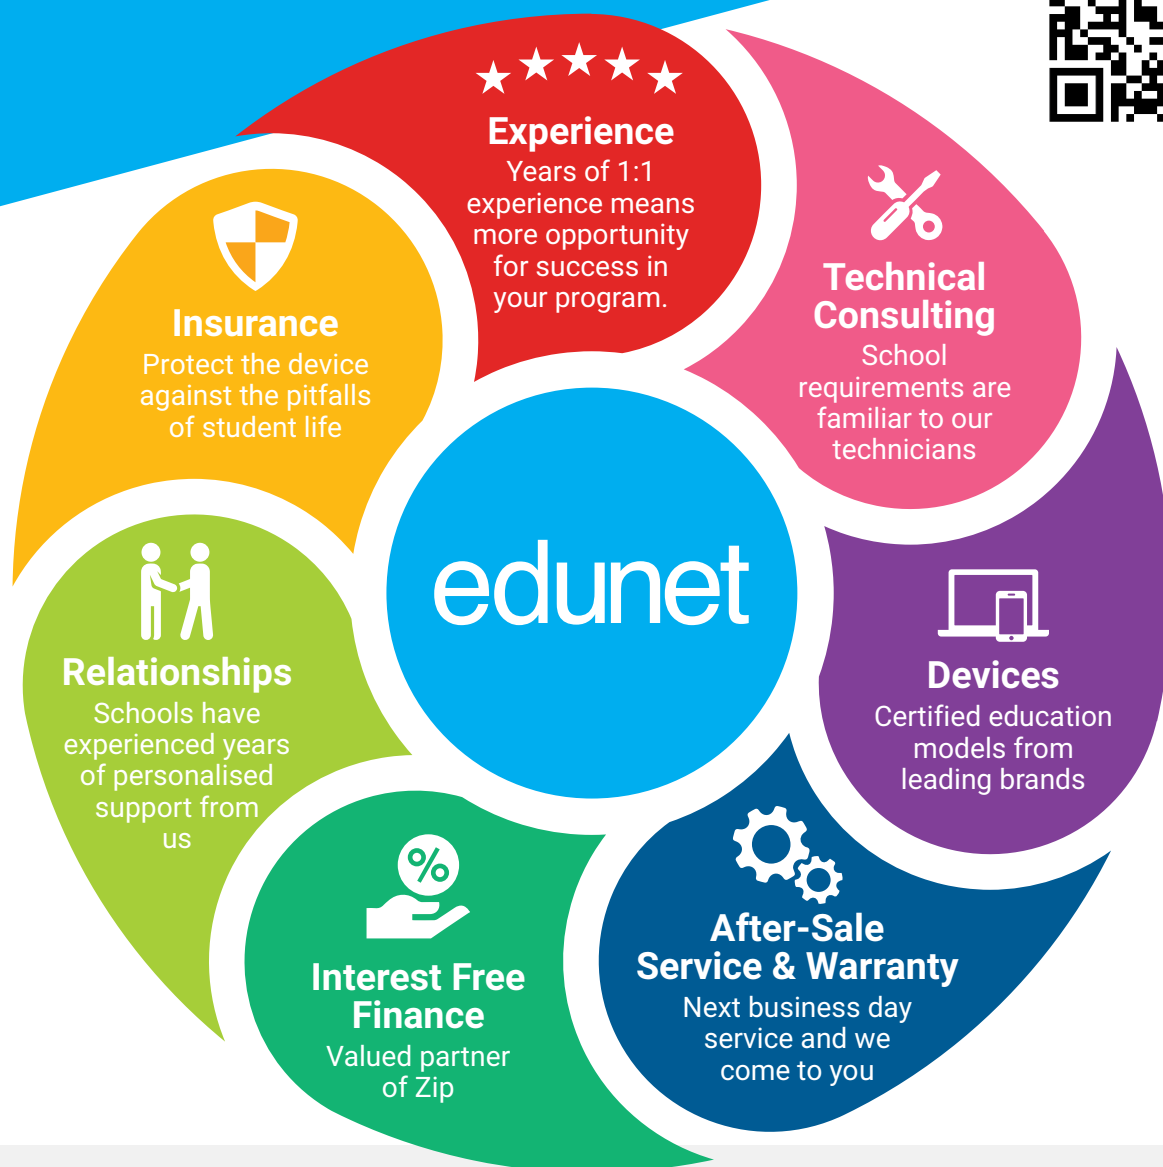

Kindest Regards,

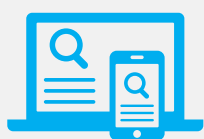

Matthew Gordon
Managing Director

Revolutionise your BYOD program with a custom built portal

edunet

Why choose Edunet?

Parent Friendly BYOD Portal

Comprehensive Device Insurance

Scholarship and Hardship Payment Coupons

School Admin and Servicing Portal

Edunet staff at your parent information night.

BYOD

The Edunet BYOD Ecosystem

More than just a BYOD portal, our ecosystem compliments any 1:1 program with the very best in after-sales service and advice. Lifting the burden of coordinating service jobs and making available accessories for lost items are just a few of the ways we have built an end-to-end BYOD solution!

Accessories Portal

Purpose built to ensure your school community have access to replacement accessories and spare parts.

- Replacement Chargers
- Replacement Styluses
- Carry Bags & Protective Devices

Items shipped via Australia Post direct to families!

Service Portal

- One click logging of service jobs
- Notify your team when families are logging service jobs from home
- Access warranty/insurance history

Should the service request require payment, our service portal can generate and send payment links to families.

Edunet are happy to deal directly with families to service machines.

School Admin Portal

Designed to give you an insight to your 1:1 program, our school admin portal puts access to information on your school's BYOD fleet right at your fingertips!

- Generate coupon codes for families in need
- Manage Scholarship Devices
- View summarised statistics on device type, age and serial number
- View device service history

BYOD Portal

Built from the ground up our portal is designed to put devices in the hands of students with minimal fuss.

- Shipping options include Australia Post or Direct to School.
- "White Glove" services and machines can arrive fully imaged and connected to your wireless network.

12 months interest free finance available via

Our checkout process can include an agreement to your School IT policy!

Devices, Warranties, Insurance & Options are listed completely at your discretion.

Over 6000+ devices shipped to Australian families in 2022

We're proudly continuing our tradition of customer service!

Devices

Whether your school runs an Apple, Google or Microsoft based device program (or maybe a mix of the 3!), we have the expertise and relationships with only the best manufacturers of devices to support yourschool and it's families in the classroom.

Edunet supports all of our devices with onsite warranty and insurance support. Through our Service Portal, schools and parents can log jobs directly to our certified technicians who will come onsite and repair any devices under the manufacturer's warranty with genuine parts.

As an Authorised Education Reseller for Apple, our prices are better than the Apple Store and we'll provide your families with superior warranty, insurance and financing support for their iPad or MacBook.

We also have a custom MacBook generator that allows your families to customise and order their own specification of MacBook!

As one of Google's leading Education partners in Australia, we're able to offer your program with a Zero Touch Enrollment service, meaning your devices can be remotely enrolled and deployed without even opening the box!

Get in contact to learn how Edunet's ZTE solution will streamline your Chromebook deployment!

Our partnership with Microsoft and with key vendors of their Windows 11 Devices, means we'll provide the cheapest Education price on whatever model and specification you wish to have on your program.

We're even able to assist with the deployment of the devices! These services include:

- Software Imaging before delivery to the parent or school.
- Autopilot / Intune setup and deployment services

Our Brands

Parent Portal

We guide your family every step of the way through a purpose built portal.

About Edunet

A passion for technology and a desire to make technology products widely accessible for learning saw the birth of Edunet Computer Services.

The adoption of computers into education was still relatively new and Edunet wanted to provide the education sector with quality IT products that could be easily integrated into the school curriculum.

20 years on and Edunet's mission remains the same. We are excited about technology, especially when it is the perfect fit for the classroom environment. We now help to deliver ICT hardware to over 700 schools nationwide.

But enough about us – let's talk about you. Whether you are the principal of a school, an IT coordinator or a school technician, you need a supplier of technology products that does the hard work so you can focus on your job. We want our friendship with schools to last and we pride ourselves on a professional, reliable and personalised approach.
